You may get a screen like this with a warning:

Please click on the warning line and choose Allow Blocked Content and then Yes

20. This will connect you to the Internet and submit your tax return;
21. HM Revenue & Customs' acceptance or rejection will be displayed on the screen;
22. You should also receive an email from the Revenue.

Or

- 20A Connect to the Internet and open Internet Explorer;
- 21A Use File/Open and Browse and find the "submit_tax_online2010" file, in the folder C:\My Tax\;
- 22A Click OK to open the file which submits your tax return;
- 23A HM Revenue & Customs' acceptance or rejection will be displayed on the screen;
- 24A You should also receive an email from the Revenue.

Some extra guidance

Please use Copy & Paste not Cut & Paste, Cut can sometimes upset formulas.

Please don't use accents on letters (such as café), the Revenue's technology does not accept them.

If you are copying information from somewhere else (such as a set of accounts) please watch out for rounding problems – the monetary amounts must be £ and p, not fractions of a p.

The Yes/No questions are generally set to No by default, select the Yes box if required, to unselect Yes, please select the Yes box again.

Using Internet Explorer and Blocked content

You may get an audible warning if the sound is turned on.

Choose Tools/Internet Options/Advanced

Near the bottom of the list the option “Allow active content to run in files on My Computer” – this must be ticked and applied before you send the tax return to HM Revenue & Customs.

Alternatively:

There may be a line across the top of the screen with a message about Blocked content. Click on the line and choose to allow blocked content, then Yes for Are you sure?

We would like to thank users who have helped us with comments and suggestions to improve the software.

Note: You may wish to delete a file called “tax_return.xml” (probably in your c:\My Tax\ folder after you have finished and you have received acknowledgement from the HM Revenue & Customs. We prepare and send this file to the Revenue, once the Revenue has processed it you do not need the file.
